

# HEALTH IMAGING PROFILE

# SAMIR TRADING & MARKETING

SAMIR is a family business rich in heritage and remarkable growth. Established in 1953 by Mr. Hamed Mahmoud Al-Hindi, as a leading Sales and Marketing Company, it evolved over the years from the iconic Studio SAMIR to the ever expanding Samir Trading & Marketing Company.

Today, a Closed Joint Stock Company with over 600 employees, and offices in Riyadh, Jeddah, Khobar, and Abha, SAMIR is one of the largest Saudi companies specializing in the distribution of advanced products and solutions covering a number of lucrative industries.

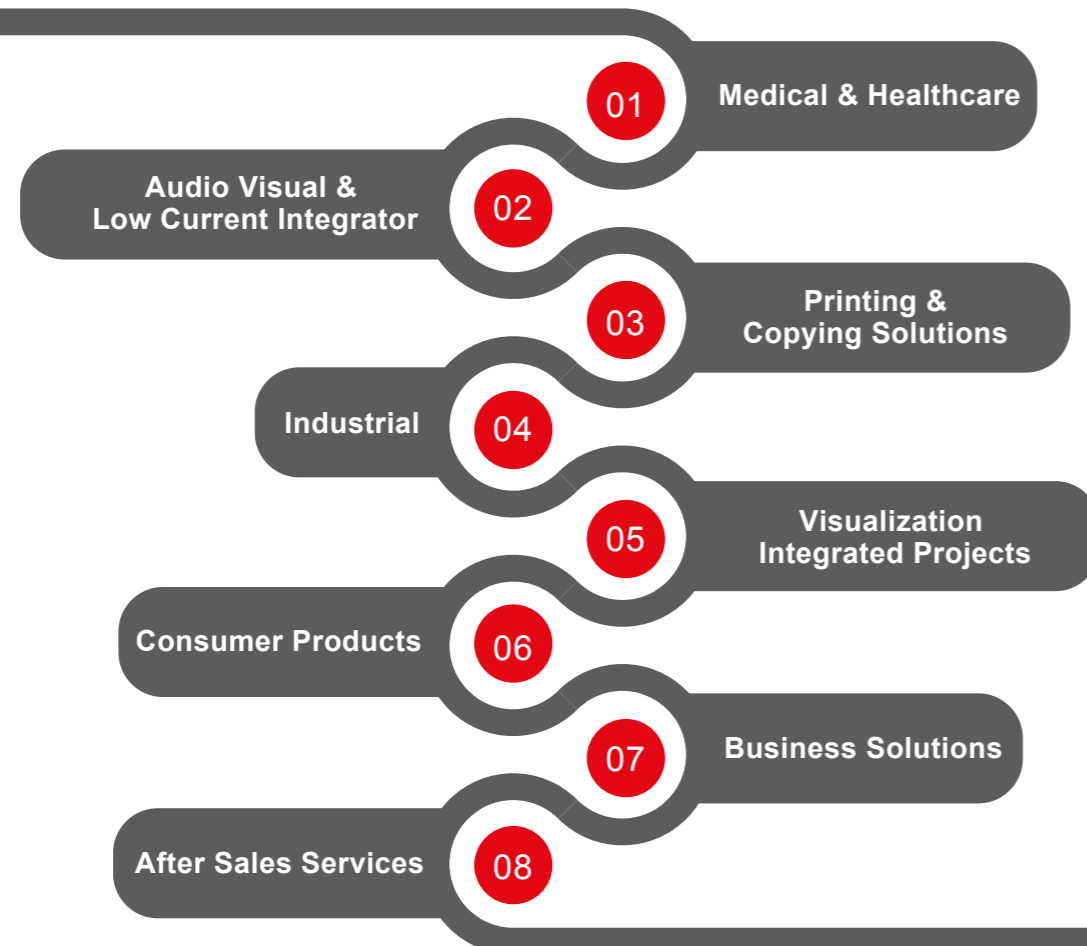

The company represents world renowned, multinational brands that are leaders in their fields, offering a wide range of products and solutions. From Medical and Health Imaging and Clinical Laboratory Equipment to Dental and Therapeutics & Diagnostics technology. Picture Archiving and Communication Systems and high volume printers, large format scanners. As well as audio-visual educational products, conference room projectors, and AV control rooms. In addition to a number of consumer products and appliances.

Since its inception, the company has been consistently growing, marking achievements and earning a respectable reputation in serving the community, and providing the Saudi market with state of the art digital products. By doing this, the company has become among the top suppliers in the medical, office equipment and imaging industry across the Kingdom.

At SAMIR , we are leaders in our industry and we understand the meaning of success. We value our customers by offering them high-quality products and premium services that develop their loyalty and exceed their expectations. We believe that we will be successful if our clients are successful. We believe in honesty, trust, and integrity...At SAMIR , we believe in FUTURE.

## OUR DIVISIONS

# Health Imaging

Today, keeping abreast with the latest digital imaging technologies, SAMIR Health Imaging Division is a market leader in Digital Radiography and provides transformational medical technologies and services. By identifying the vast geography of Saudi Arabia SAMIR and its partner suppliers like Carestream & Nuosoft Medical started providing health imaging Solutions to support Medical Facilities (hospitals, medical centers, clinics or diagnostic centers, teaching institutes, field & home care medical providers) across Saudi Arabia to delivers the best health imaging radiography results.

In this frame, SAMIR has introduced CARESTREAM, which provides X-ray imaging system for efficient patient care, and different solutions, such DR, CR, Printers, Films & CBCT (Cone beam CT).

SAMIR also introduced Nuosoft Medical Systems, a leading global clinical diagnosis and treatment solution provider, who provides latest technology in CT and MRI systems. Through innovation and excellent operations, Neusoft Medical Systems & SAMIR are advancing healthcare products across a wide range of medical solutions to enhance Saudi healthcare to all.

## DR SYSTEMS

**One detector goes with you...grows with you**

There's a smarter way to go digital with the Carestream DRX family of DR systems. With the X-Factor, a single wireless detector works across all your DRX equipment to convert, expand or replace existing imaging solutions. The full line of digital x-ray systems combines compatible, scalable components to meet today's needs and position you for tomorrow's growth. We are caring and committed to:

- | Do more, spend less (boost productivity)
- | Quality images. Quality Care
- | It's all about sharing. Deployable throughout your facility – wherever it's needed most.
- | Go digital. In a day. Upgrade with minimal disruption.
- | High speed. Low speed.
- | Water resistance feature is available now in our 35x43 cm detector .
- | new wireless detector with size of 43x43 cm has been recently released.
- | Pixel Size (139 micron) to provide an extraordinary resolution.

## Analog Systems

Medical Imaging Excellence, Made Economical

CARESTREAM Q-Rad floor-mounted x-ray systems are ideal for busy imaging centers, orthopedic offices, private practices, urgent care facilities and ER overflow rooms. The analog systems offer full positioning functionality, ease of use and the highest degree of image quality for enhanced patient care. Q-Rad Systems are configured and priced for your facility. Motion Mobile is a highly economical bridge between analog, CR and DR imaging. Its unique upgradability allows you to customize the system to meet your needs today while planning for your future.

## Medical Printing Systems

A full range of capabilities for your printing needs

CARESTREAM's DRYVIEW Laser Imagers offer a complete diagnostic imaging portfolio. This portfolio includes medicalprinting solutions for the entire imaging chain including computed radiography, digital radiography, HIS/RIS, PACS, hardcopy digital. Our reliable medical printing systems make it easy and affordable to meet your current needs and build for your future.

## Film Systems

The gold-standard in x-ray film technology

Choose the gold standard in x-ray film technology. Known for image quality, versatility, and performance, Carestream provides a wide range of film offerings from general radiography and mammography to angiographic, orthopedic and thoracic applications, as well as film solutions for life science research

## Computed Radiography Systems

### Digital Imaging Made Simple

Carestream's family of computed radiography systems can accommodate any level of facility size and workflow—from Small private practices to large, high-volume hospitals and diagnostic imaging centers. From reliable, compact tabletop solutions to multiple cassettes, floor standing models our CR systems fit your budget and integrate seamlessly into your workflow to deliver high-quality digital images.

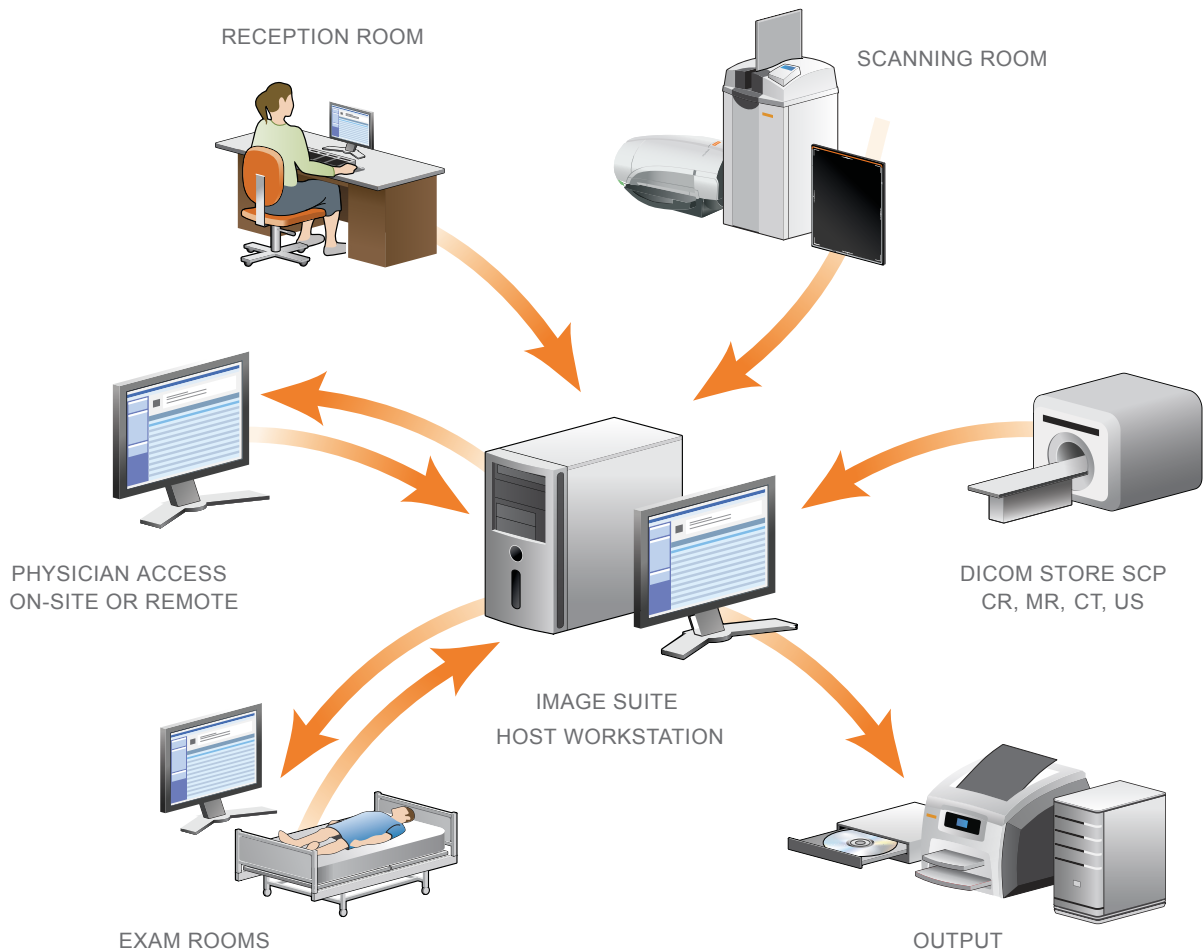

## CarestreamIMAGE SUITE PACS - RIS VNA

### Image acquisition and management for CR and DR Systems

Image Suite V4 Software has set a new benchmark for workflow efficiency in smaller facilities. This robust software features an easy-to-use, touch-friendly interface, an enhanced set of tools, streamlined workflow and improved image quality. Our advanced "mini-PACS" module allows superb image management and analysis, and is now fully optional.

Get the high-quality images you need with a system that's a perfect fit – at very affordable price.

Neusoft Medical Systems Co., Ltd. (Neusoft Medical Systems) is one of the promoters of large-scale high-end medical equipment in China. Founded in 1998, Neusoft Medical Systems now has 7 overseas subsidiaries respectively located in the United States, Dubai, Peru, Russia, Brazil, Kenya, and Germany. There is also an office in Vietnam. In SAMIR we are promoting CT and MRI medical systems. Currently, products of Neusoft Medical Systems are being exported to over 110 countries and regions around the world, serving more than 9,000 healthcare providers.

Neusoft Medical Systems is dedicated to becoming a leading value innovator of global healthcare equipment and services. We care for people's healthcare needs by providing high-quality medical products and services with innovative technology, delivering comprehensive solutions to healthcare providers.

## Radiology Solution CT

**More than 22 years of technology accumulation:**  
precision imaging and low-dose application

**More than 5,000 users' authentication:**  
application function and efficient process

## Radiology Solution MRI

- High hardware configuration
- Fast workflow and imaging
- Ecological and economic design
- User friendly design

ECORAY, a trusted source of innovative x-ray imaging technology. Upon the basis of High Frequency Generator technology we have been supplying different types of x-ray imaging equipment. We started from a small mono-bloc generator at the beginning, and now produce compact and powerful high frequency generators with full Digital Radiographic Systems. Today's ECORAY is the leading technology supplier in x-ray imaging field in Korea. ECORAY's all products are made in Korea with our own technology.

## GENERAL RADIOGRAPHIC SYSTEM

### HF-525 PLUS

The HF-525PLUS is an affordable and dependable general radiographic system designed for flexibility and friendly use in all general radiographic procedures, it can also be custom-configured to your specific clinical requirements, including chest, spine, complete skeletal, abdominal, urological and studies.

## PORTABLE GENERATOR

### HIGH-POWER (5KW) ULTRA 100

- | High-Power Generator with advanced features
- | Most powerful portable generator (110kV/100mA output)
- | Auto measuring SID by Ultrasonic sensor
- | Easy access to DR solution
- | Durable metal connector of hand switch
- | Applicable mobile stand & Table as an optional item
- | Certified MDD CE for medical use

Founded in 1931, Wolf occupies a unique position in the manufacture and distribution of imaging accessories. Wolf manufactures over 180 different products in our 65,000 square foot facility in Deer Park, New York, USA For more than 80 years, medical professionals have relied on quality x-ray protective products from Wolf X-Ray. Today, we are proud to offer you a complete line of protective apparel to fit your specific needs including:

- | Aprons
- | Thyroid Collars
- | Gloves
- | Apron and Glove Racks
- | Protective Eyewear
- | Gonad Shields
- | Radiation Badge Services
- | Radiation Caps
- | Related Accessories
